TOPIC STRUCTURE

The program of the conference will proceed in several blocks, which will be running in two halls at the same time. The **Managerial Hall** will be arranged for those interested in presentations from the managerial point of view, and the **Technical Hall** will host more technically oriented presentations. The participants will therefore be able to select specific presentations which interest them most. The lengths of the presentations will be **25 minutes**.

The detailed program, including particular presentations and the names of their presenters, will be specified ahead of time. The up-to-date information can be found at www.konferencesecurity.cz.

TOPIC OF INTEREST

There will be four topic blocks in both halls. Each topic will comprise three presentation slots. Please send us an email with your proposals for theme block, presentation topic or speaker as soon as possible.
